

Government spending on aged care

2015-16

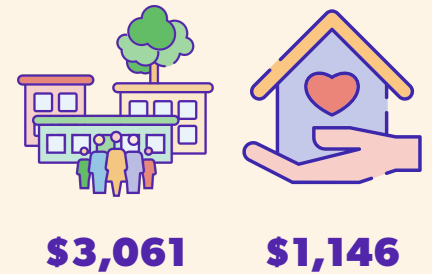

\$16.8 billion was spent on aged care services in 2015-16 by governments

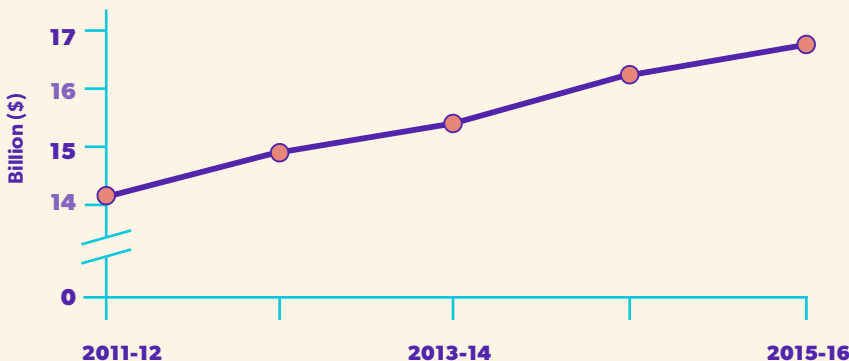

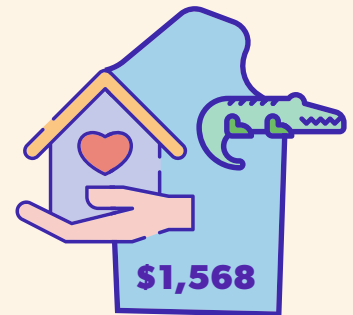

Almost 70% of government spending on aged care was on residential aged care

2.7 times as much is spent on residential aged care than home care and support (per older Australian)

The **Northern Territory** was the only state or territory where more was spent on home care and support than residential aged care (per older Australian)

Government spending **increased by 19%** over the last 5 years
