Executive Summary

- At 31 December 2018, there were 93,331 people in a home care package. This represents an annual increase of 15,413 people (19.8 per cent) since 31 December 2017 (77,918) and a quarterly increase of 2,685 people (3.0 per cent) since 30 September 2018 (90,646).
- There were 43,632 people in a high level (level 3 and 4) home care package at 31 December 2018, which was 3,636 (9.1 per cent) more than 30 September 2018 (39,996).
- There were 10,610 new care recipients entering home care in the December 2018 quarter.
- At 31 March 2019, there were 75,739 people waiting on a home care package at their approved level, who had not yet been offered access to a lower level package. Of these people, 94.9 per cent (71,885) had been provided with an approval to access support through the Commonwealth Home Support Program (CHSP).
- The number of people with a level 4 approval who were waiting for a package at their approved level, who had not yet been offered a home care package, fell by 21.7 per cent (3,685) from 30 June 2018 (16,963) to 31 March 2019 (13,278) due to increased investment.
- At 31 March 2019, there were 53,299 people who were waiting for a home care package at their approved level, who had already been offered a lower level package. Of these people, 30,283 chose to take an offered package, 6,355 were deciding on whether to take up a package and 16,661 had not taken up their previous offer(s) of a lower level package.
- As at 31 March 2019, 97.0 per cent of people who were waiting for a home care package at their approved level had been provided with the opportunity to connect to other Commonwealth subsidised aged care support.
- 94,156 (73.0 per cent) of people in the National Prioritisation System (NPS) who were waiting for a home care package at their approved level also had an approval for a permanent place in a residential aged care facility.
- There were 26,486 approvals for a home care package in the March 2019 quarter, an increase of 266 compared to the December 2018 quarter.
- 31,200 home care packages were released during the March 2019 quarter, at an average of 2,400 per week.
- At 31 March 2019, there were 917 approved home care providers with a home care service. This represents an increase of 15 providers (1.7 per cent) since 31 December 2018 (902).

INTRODUCTION

OVERVIEW

The Australian Government recognises that people want to remain living independently in their own homes for as long as possible. To support this, the Government subsidises packages through the Home Care Packages Program (HCPP) to provide home-based care that can improve senior Australians' quality of life and help them to remain active and connected to their communities.

This report provides an update on the operation of the HCPP for the period between 1 January 2019 and 31 March 2019 (referred to as the March 2019 quarter for the remainder of the report).

This report consists of four chapters:

- Chapter 1: assessment for home care and the number of approvals.
- Chapter 2: the delivery of home care services.
- Chapter 3: the prioritisation of people in the National Prioritisation System (NPS).
- Chapter 4: maximum exit amounts.

A Glossary is also provided at the end of the report explaining specific terminology and abbreviations used throughout the report.

Data in this report was collected from information systems and records held by the Department of Health (the department) and the Department of Human Services (DHS). Data was valid on the date of extraction. Data extracted on a different date may vary from that in this report.

Where possible, data is provided for the period between 1 January 2019 and 31 March 2019. Due to a lag in data availability for some indicators, particularly those dependent on receipt of provider claims by DHS, earlier time periods are reported on. Information on the maximum wait time for a home care package by level is provided for 30 April 2019 in recognition that information for this indicator was available at the time of publication.

Table 1 provides a breakdown of the current number of allocated home care packages across the forward estimates.

Table 1: Number of allocated home care packages across the forward estimates

Package level	2018-19	2019-20	2020-21	2021-22	2022-23
1	6,038	11,240	11,915	13,119	13,453
2	53,452	64,630	65,192	66,133	67,161

Total	124,032	144,912	148,166	153,438	157,154

A person may be asked to pay fees when they take up a home care package. They may be asked to pay a basic daily fee of 17.5 per cent of the single basic age pension (currently \$10.43 per day as at 1 January 2019).

If a person is assessed as having the capacity to pay more they may be asked to pay an income-tested care fee based on their income. The Government subsidy to the home care provider is reduced by the maximum income-tested care fee. There is an annual cap on income-tested care fees, which is applied on a daily basis, and a lifetime cap after which a person cannot be asked to pay any income or means-tested care fees.

From 1 July 2019, the maximum basic daily fees for home care will reduce by:

- \$400 per annum for level 1
- \$200 per annum for level 2
- \$100 per annum for level 3.

The Government will increase the value of a package by the same amount to maintain the total value of each package level.

Further information on the HCPP, including eligibility, fees and recent reforms can be found at [Home Care Packages Program | Ageing and Aged Care](#).

1. ELIGIBILITY AND ASSESSMENT

DISTRIBUTION OF HOME CARE PACKAGE LEVELS

- There are four levels of home care packages to help meet the different levels of care needs (Table 2), which are determined by the outcome of an aged care assessment.

Table 2: Home care package annual subsidy, by package level at 31 March 2019

Package level	Aged care services for people with:	Annual subsidy amount (\$) paid by the Australian Government
1	Basic care needs	8,271
2	Low-level care needs	15,045
3	Intermediate care needs	33,076
4	High-level care needs	50,286

Note: The amounts in the table do not include additional supplements that a provider may be eligible for.

VOLUME OF HOME CARE APPROVALS

- There were 26,486 home care approvals in the March 2019 quarter (Table 3).

NUMBER OF APPROVED HOME CARE PROVIDERS

- There continues to be a large number of home care providers in the market, allowing for choice for senior Australians.
- There were 917 approved home care providers at 31 March 2019 (Chart 2). This was an increase of 15 providers (1.7 per cent) from 31 December 2018 (902) and an increase of 64 providers (7.5 per cent) since 31 March 2018 (853).

Chart 2: Number of approved providers of home care with home care services at six-monthly intervals since the commencement of the Increasing Choice reforms

Note: Approved provider count is based on the approval effective date.

- Appendix C provides the total number of approved home care providers in each ACPR that have indicated in My Aged Care that they have operational capacity to provide services across all four package levels in that region at 31 March 2019.

Key points

- At 31 December 2018, there were 93,331 people in a home care package. This was an increase of 2,685 people (3.0 per cent) since 30 September 2018 (90,646), and an annual increase of 15,413 people (19.8 per cent) since 31 December 2017.
- There were 43,632 people in a high level (level 3 and 4) home care package at 31 December 2018, which was 3,636 (9.1 per cent) more than 30 September 2018 (39,996).
- There were 10,610 new entries to home care in the December 2018 quarter.
- At 31 March 2019, there were 917 approved home care providers with a home care service, an increase of 15 providers (1.7 per cent) since 31 December 2018.

3. NATIONAL PRIORITISATION SYSTEM

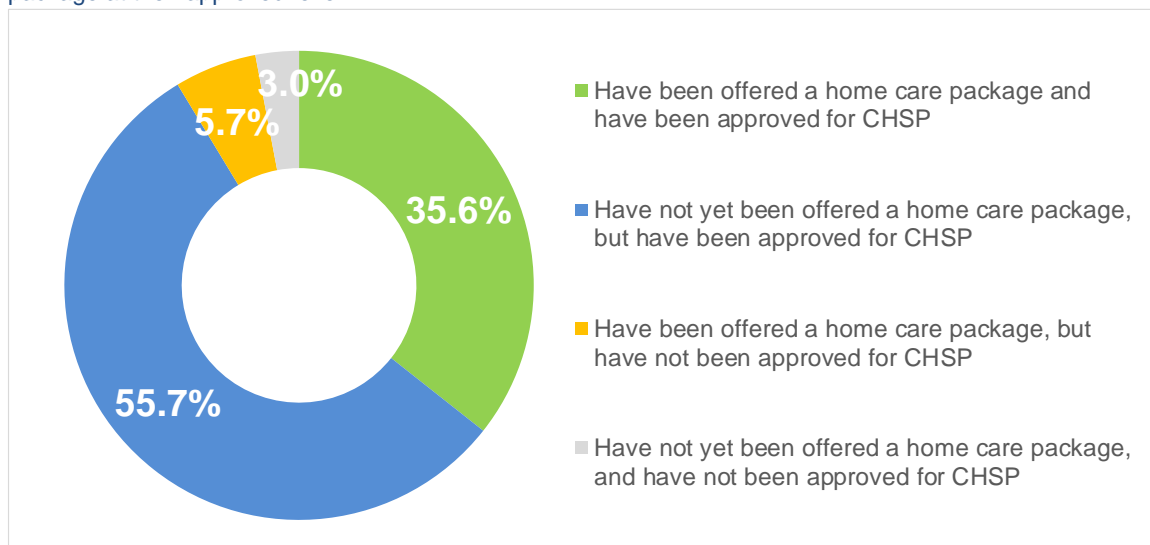

NATIONAL PRIORITISATION SYSTEM

- The National Prioritisation System (NPS) allows for a nationally consistent and equitable process for assigning home care packages based on people’s individual needs and circumstances, regardless of where they live.
- The NPS should be considered as more than a single queue. For example, the NPS includes people who have accepted a lower level home care package that allows them to connect with home care services early, as well as others that have not accepted a lower level package. It also includes people that have approvals for other care types such as residential care and CHSP.

ACCESS TO COMMONWEALTH HOME SUPPORT SERVICES

- In addition to receiving an approval for a home care package as an outcome of their assessment, most people are provided with approval to access CHSP to assist with specific care needs identified during the assessment. Assessors provide these approvals to ensure people have options to address care needs, whilst awaiting their approved home care package.
- Over 90 per cent of people on the NPS at 31 March 2019 who were waiting on a home care package at their approved level, have also been approved for access to services through the CHSP.
- Additionally, people retain the option of accessing some specific CHSP services after they are offered a level 1 or 2 home care package when their budget has been expended or where additional short-term episodic care is required. Diagram 1 shows that 97.0 per cent of people in the NPS have been offered a home care package and/or approved for CHSP services.

Diagram 1: Status of people in the National Prioritisation System at 31 March 2018 who are waiting for a home care package at their approved level

PEOPLE WITHOUT A HOME CARE PACKAGE

- At 31 March 2019, there were 75,739 people who were waiting for a home care package at their approved level, who had not yet been offered a home care package (Table 7). Of these people, 94.9 per cent (71,885) had been provided with an approval to access CHSP.
- The number of people with a level 4 approval who were waiting for a package at their approved level, who had not yet been offered a home care package, fell by 21.7 per cent (3,685) from 30 June 2018 (16,963) to 31 March 2019 (13,278).

PEOPLE WHO HAVE RECEIVED AN OFFER OF AN INTERIM PACKAGE

- At 31 March 2019, there were 53,299 people who had been offered an interim home care package while they wait for a package at their approved level.
- Those offered an interim package fell into three response categories (Table 8):
 - those who accepted their offer (30,283);
 - those who have not yet accepted their offer but whose offer was still open (i.e. within 56 days of offer) (6,355); and
 - those who did not take up their offer (16,661).

Table 8: Number of people who have been offered a package while they wait for their approved level, by response category and level of approval at 31 March 2019

Level 3	10,962	2,500	3,824
Level 4	15,579	2,051	10,120
Total	30,283	6,355	16,661

* Counts of people in an interim home care package presented in the table are derived from point-in-time data. Although a count of people in an interim home care package can be derived for 31 March 2019, this Report only records the number of people in a home care package at 31 December 2018 (refer to Chapter 2). This is done to allow for delayed claims to be made by service providers to improve the accuracy of the total count of people in a home care package.

- Of the 16,661 people who had not taken up their previous offer(s) of a package, 81.3 per cent (13,552) had been provided with an approval to access CHSP (Table 9).

Level 3	3,824	3,538	92.5%
Level 4	10,120	7,482	73.9%
Total	16,661	13,552	81.3%

PEOPLE APPROVED FOR RESIDENTIAL CARE

- Aged Care Assessment Teams assess a person’s needs and, when making an approval for care, they can approve people for home care packages, residential care, respite care, transitional care, and CHSP, depending on the person’s circumstances. Therefore, based on care needs and choice, not everyone with a home care approval will enter home care.
- Many people have approvals for both home and residential aged care, and some will choose to take up a residential care place instead of a home care package. At 31 March 2019, there were 94,156 (73.0 per cent) people in the NPS who had dual approvals, having been approved for a permanent place in a residential aged care facility and also currently seeking a home care package at their approved level (Table 10).

Table 10: Number of people awaiting a home care package at their approved level who were also approved for permanent residential care, by level of approval at 31 December 2018

Approved Level	Number of people waiting for a package at their approved level who also have an approval for permanent residential care
Level 1	988
Level 2	22,125
Level 3	34,895
Level 4	36,148
Total	94,156

- While many people seek to choose to remain in their own home, this is not always possible. For people with high level care needs, for example, requiring care morning and evening across seven days, they may need to consider the benefits of the level of support offered by residential care.

DISTRIBUTION OF PEOPLE ACROSS STATES

- The distribution of people without a home care package across states and territories largely follows the pattern of population distribution across Australia (Table 11).

Table 11: Number of people awaiting their approved level who have not been offered a lower level package, by state and territory of residence and level of approval at 31 March 2019

Note: A person with an approval at multiple levels is only counted once - at their highest active approved level.

- The number of people without a home care package at their approved level at 31 March 2019, by ACPR, who were not either in, or offered, an interim level package is provided in Appendix D.

WAIT TIMES

- All people approved for a home care package, and seeking services, can access their individual expected wait time to receive their first package, and their approved package level.
- A person's place in the NPS is solely based on date of approval and priority for care. Estimated wait times at 31 March 2019, for a person with a medium priority approval joining the system for a package by level are provided in Table 12.
- People approved for a higher level package have the option of receiving a lower level package to commence receipt of care as early as possible. They may also have the option to access CHSP services, ensuring that the strong majority of people have access to subsidised care while they await a package at their approved level.

NUMBER OF HOME CARE PACKAGES RELEASED

- The department released 31,200 home care packages during the March 2019 quarter (Table 13), at an average of 2,400 per week.

- Of the packages released in the March 2019 quarter:
 - 20.8 per cent (6,497) were offered as upgrades to people who had previously been offered and accepted a lower level interim package.
 - 79.2 per cent (24,703) of packages were offered to people who were not yet in an interim level home care package (Table 14). This included people who were previously offered a package and did not take up the offer, as well as people who were offered a package for the first time.

- Information on the number of packages released by ACPR and level for the March 2019 quarter can be found at Appendix E.

Key points

- At 31 March 2019, there were 75,739 people who were awaiting their approved level package who had not yet been offered a lower level home care package. Of these people, 94.9 per cent (71,885) had been provided with an approval to access CHSP.
- At 31 March 2019, there were 53,299 people who had been offered an interim home care package while they wait for a package at their approved level.
- 31,200 home care packages were released during the March 2018 quarter with 24,703 (79.2 per cent) being offered to people who were not yet in an interim package.

4. MAXIMUM EXIT AMOUNTS

An exit amount is an amount that can be deducted by a home care provider from a person's unspent home care package amount if the person leaves their care. This may happen if the person decides to change their home care provider or when they leave home care altogether.

The maximum exit amount represents the highest dollar value the provider can include in a person's home care agreement and must be published on the My Aged Care website.

- The average published maximum exit amount of all providers at 31 March 2019 was \$226 (inclusive of amounts of \$0 and where no amount was provided) (Chart 3). This average had decreased by \$5 (or 2.2 per cent) since 31 December 2018 (\$231) and decreased by \$24 (or 9.6 per cent) since 31 March 2018 (\$250).

Chart 3: Average maximum exit amount published by home care providers at six-monthly intervals since the commencement of the Increasing Choice reforms

Note: All approved providers, irrespective of whether or not they publish an amount, are included in determining the average.

- 42.3 per cent of approved home care providers had indicated that they would not deduct an exit amount, up from 41.7 per cent at 31 December 2018.
- The number of providers publishing a maximum exit amount of \$1,000 or more at 31 March 2019 was 10 (Table 15).

Table 15: Number of approved home care providers with a published maximum exit amount of \$1,000 or more

	31-Dec-17	31-Mar-18	30-Jun-18	30-Sep-18	31-Dec-18	31-Mar-19

(B) No. of providers with a published maximum exit amount of \$1,000	11	7	6	6	6	6
Combined (A)+(B)	15	12	11	11	10	10

Key points:

- At 31 March 2019, the average published maximum exit amount was \$226.
- At 31 March 2019, 42.3 per cent of all approved home care providers indicated that they would not deduct an exit amount.
